

HSP1P series for zones 1/2 and 21/22

Sockets and plugs for explosion hazard zones

Design features

- ▶ **accidental connection protection** – different housing colors depending on operating voltage for quick and safe identification
- ▶ **integrated internal earthing** – ensuring continuity of electric shock protection throughout the plug-socket system
- ▶ **socket lockable with a padlock** – additional protection against unauthorized access or accidental use
- ▶ **housing made of glass fiber reinforced BMC resin** – high mechanical strength, antistatic and heat resistant
